# Agency response

Columbia is a growing community with three large manufacturing companies (3M, Square D and Quaker Oats) and several smaller companies (American Air Filters and DANA, to name a few). There is a large state university and two smaller colleges in Columbia. Columbia's daytime population is greater than any other time of day with commuting workers. There is a large shopping mall and Columbia is the conjunction of two major highways (I-70 and Higher 63). There are also five hospitals in Columbia (Ellis Fischel Hospital, University Hospital, Boone Hospital, Columbia Regional Hospital and the VA Hospital).

RACIAL PROFILING DATA/2008

# Agency response

The Carthage Police Department would respectfully like to point out that we have many large industries in our city, including a nationally known poultry plant. These industries bring many good things into our area and we are proud to have them. However, many people that are contacted during traffic stops in our city are not legally in the United States. Carthage is attractive to non-legal citizens hoping to find employment. When these individuals cannot produce valid identification or driver's licenses, our arrest numbers and search incident to arrest numbers are skewed. In addition, a major state highway runs through our jurisdiction bringing many people of diverse backgrounds through Carthage.

# Agency response

The City of Chesterfield, Missouri is an upper middle class community in far west St. Louis County and lies at the crossroads of a major interstate highway (I-64) and Olive Street/Clarkson Road.

Located at this intersection is Chesterfield Mall, the major shopping center in this part of St. Louis County. The customer base at this shopping center has a significant number of African-American customers who reside outside the corporate limits of the City of Chesterfield. In addition to Chesterfield Mall, the world's longest strip mall/shopping center lies to the immediate west with several major interchanges approaching the Chesterfield Commons and exiting from I-64.

The City of Chesterfield workforce has a majority number of employees who reside outside the city limits. Since Metro Bus service is limited and in some cases nonexistent, these employees must drive to work. This increased traffic leads to more traffic congestion and ultimately to traffic law violations.

RACIAL PROFILING DATA/2008

**Notes:** Population figures are 2008 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
**Search rate** = (searches / stops) X 100.
**Contraband hit rate** = (searches with contraband found / total searches) X 100.
**Arrest rate** = (arrests / stops) X 100. #Error indicates zero denominator.

# Agency response

The City of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County Justice Center, which houses over 1,000 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop or do business. Most of those visiting Clayton reside in the St. Louis Metropolitan area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: I-170, Forest Park Parkway, Hanley Road, Clayton Road, Brentwood Blvd., and Forsyth Blvd. Therefore, it is felt that for the purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis Metropolitan area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton. If the racial makeup of St. Louis County was used, the disparity index for blacks in the City of Clayton would be 1.41.

# Agency response

The City of Clinton is located on the main route between the Kansas City metropolitan area and the City of Springfield. As a consequence, a large number of non-Clinton residents pass through the City of Clinton. 39% of all traffic stops made by the Clinton Police Department take place on state highways. Given the number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of the City of Clinton are inherently flawed.

# Agency response

The City of Crestwood is not a self-contained community but is part of a larger geographic region that contains the entire population of St. Louis County and that of St. Louis City. The City of Crestwood contains a major State Highway that is lined with businesses, eating establishments, grocery stores and Crestwood Plaza shopping center, a regional draw shopping center. The mall is also served by three different bus lines on the Metro system. The City of Crestwood also contains a portion of I-44. All of these influence the demographics of the driving public that we deal with.

While Crestwood has a Black population of 0.86 %, St. Louis County, in 2007, had a Black population of 21.8% and the State of Missouri has a Black population of 10.7%. To judge Crestwood's stop data based on our population provides for an inaccurate reflection of the driving public that our officers deal with. Crestwood's Black population does not reflect our region and our driving public.

# Agency response

The City of Gladstone contains three sizable apartment complexes along a major thoroughfare through the City that serves as the principal connection to U.S. Highway 169, a well-traveled freeway that connects Gladstone to the City of Kansas City, and links our City to the Kansas City International Airport. Kansas City completely surrounds the City of Gladstone. These three apartment complexes offer government-subsidized housing that contains a disproportionate percentage of minority tenants.

The combination of freeway access, being surrounded by metropolitan Kansas City, concentrations of lower-income minority tenants in three apartment complexes, and the visitor traffic generated by these apartments attracts a higher percentage of minority visitors to Gladstone than the proportion of minority residents of the City would suggest. The Gladstone Public Safety Department has established policies to assure that minorities are not disproportionately subject to stops or arrests by our police officers. These policies are reinforced by active supervision of our law enforcement officers to assure that racial profiling or other discriminatory behavior does not exist.

# Agency response

The City of Glendale is a bedroom community in the interior west county area of metropolitan St. Louis. We are at the mid point of four major shopping malls. We have one state highway with an average daily traffic count of over 30,000 vehicles. That number was greatly increased in 2008 due to the shutdown of Interstate 64, which parallels State Highway 100. We have two county arterial roads, both averaging over 10,000 vehicles per day. We are within a half-mile of Interstate 44, which allows for each access to St. Louis and the interstate system.

# Agency response

The City of Hazelwood is a destination city for shoppers and employment. Hazelwood is home to approximately 1000 businesses employing over 25,000 employees. We have a 1.3 million square foot under roof shopping mall which attracts over 2 million customers annually. We have Interstate 270 which traverses the city with I-170 intersecting I-270. Each of these interstates carries over 125,000 vehicles per day. We have 3 major north-south arterial roadways through the city carrying over 100,000 vehicles per day. We have numerous minority visitors and motorists who visit and travel to and through the city.

# Agency response

The Independence Police Department is an internationally accredited Police Department that does not tolerate racial profiling. Officers receive annual training on cultural challenges and issues. Last year, we purchased a program called "Law Enforcement Software Solutions" from Columbia, Missouri. This program is an accurate and accountable reporting of our traffic stops. Independence has a minority population that averages, according to the census report, approximately 2.38%. We do share our western border with Kansas City, Missouri. Independence has numerous State and Federal Highways which run through our city. Independence has become a major entertainment city, with I-70 being so close to this area of shopping, restaurants and entertainment, our traffic from other areas has increased. We are committed to ensuring we maintain the accountability and integrity of this process which indicates the level of professionalism within the Independence Police Department.

# Agency response

Jasper County has a major University (Missouri Southern State University) and some colleges in the area (Ozark Christian College). We also have a large mall and several major businesses that employ people from the surrounding area (Kansas, Oklahoma). Some examples are: Conway trucking, Legget and Platt, Tri-State trucking, Butterball, Schrieber's, St. John's Hospital and Freeman Hospital. We also have several highways that run through our area – I-44, US 71, 96 Hwy, 43 Hwy.

# Agency response

- The amount of searches at car stops decreased for Caucasians 2%, African Americans 4%, and Hispanics 8%. This shows that JPD officers are narrowing the gap for number of searches among the different races.
- Current analysis fails to distinguish between residents and non-residents who are stopped. The daytime population of Joplin is in excess of 270,000 while its resident population is around 50,000. The existence of significant proportions of non-resident stops lead to invalid conclusions if racial comparisons are made exclusively to resident population figures.
- The City of Joplin sits at a crossroads for Interstate 44 and Hwy 71, so numerous travelers pass through on a regular basis.

# Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.0 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG office submitted the summary report did not include the new category Stop Outcome "Other," which accounted for 5,783 stops. The Total Stops figure, however, includes stops associated with this new category. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

# Agency response

Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University and Kirksville College of Osteopathic Medicine account for an additional 6,000 students/residents (2009 numbers indicate that 19.3 of the Truman students are identified as other than white, and 96 percent come from outside Kirksville, including at least 309 international students). Kirksville is located on one of the few major north-south state highways (Highway 63) that service northern Missouri and southern Iowa. 8,700 vehicles per day travel the highway into and out of town. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

# Agency response

Interstate 70 borders the City of Lake Saint Louis to the north and U.S. 40/61 bisects the south end of the municipality, resulting in a fair amount of non-local traffic. Consequently, many drivers stopped for traffic violations in this venue are non-residents. Because of this, calculating a disparity index based on a comparison of ethnicity of drivers stopped with the ethnicity of the local population may be misleading.

RACIAL PROFILING DATA/2008

**Notes:** Population figures are 2008 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
**Search rate** = (searches / stops) X 100.
**Contraband hit rate** = (searches with contraband found / total searches) X 100.
**Arrest rate** = (arrests / stops) X 100. #Error indicates zero denominator.

# Agency response

The traffic stops report for Normandy also includes the Pasadena Park stops. Pasadena Park has a population of 489. By adding the number of Pasadena Park residents to the number of Normandy residents, our disparity index will drop and show a more accurate number.

# Agency response

North Kansas City has a list of demographics that makes it a challenge to discern meaningful data regarding racial profiling analysis. The city is only 4.5 square miles, with less than 5,000 residents; however, 6 highways travel through the city limits carrying an estimated 200,000 vehicles a day. Furthermore, the city's daily workforce/daytime population is estimated at 30,000 people at over 1,100 businesses. There is no information regarding the race/sex makeup of the daily motorists or the workforce. Due to the small size of the department and the unique "Urban Village" description, we are not able to compare individual officer's statistics with other officers working in a similar environment.

# Agency response

Norwood, MO is a small town that sets off Highway 60 in southern Missouri. We are approximately 54 miles east of Springfield. We have State Highway C that runs south throughout the town, and also State Highway PP that goes off Highway C. We have no shopping malls, interstates or large employers that are close, however, we do have a school.

# Agency response

The City of Oak Grove lies along Interstate I-70 and is within the Kansas City Metropolitan area. There are also two large truck stops and a Wal-Mart located within the City of Oak Grove that, coupled with the geographic location, affect the daily motorist and population demographics significantly.

# Agency response

Olivette is a major corridor for the St. Louis Metropolitan area with major interests and roadways that pass through or are immediately adjacent to the city. These interstates and roadways are the pipeline connecting thousands of people traveling into and through Olivette for business and pleasure purposes. These roadways also serve thousands of motorists throughout the region traveling to and from various destinations. Thus, the motorists stopped for traffic violations are more reflective of the population of the metropolitan area rather than the resident population of Olivette. Starting the first quarter of 2008, MoDot began the Highway I-64/US 40 construction project which has increased the number of traffic stops by local law enforcement as more commuters utilized alternate routes, including Olive Boulevard.

# Agency response

Our higher than proportional incidence of stops of black and Hispanic citizens centers around the fact that there are 6 food processing plants within a 45-minute drive of Sedalia. The workers live in and around Pettis, Johnson and Saline counties and drive to the plants daily. Tyson Foods of Dresden, Missouri is the largest food processing plant in Pettis County. These plants employ a large number of Hispanic and black workers. Many of the Hispanic workers are illegal aliens and as such do not appear on the census rolls. Along with this is the fact that the University of Central Missouri is located in Warrensburg, Missouri in Johnson Co. A large number of day and evening students from surrounding counties commute to UCM daily. Vehicle stops by the Sheriff's office are based on traffic violations observed, not the possible race of the drivers. The vast majority of the time the race of the people stopped is unknown until the vehicle is actually stopped. Searches are conducted based on the actions of the individuals stopped or incident to lawful arrest. Race is not a factor in deciding who will or will not be asked for consent to search or who will be searched incident to arrest.

# Agency response

The City of Raymore, Missouri, maintains the only 24-hour Wal-Mart Supercenter in the entire south Kansas City metropolitan area. The Supercenter services a number of communities, such as Grandview, Raytown, and south Kansas City, all of which have a more racially diverse population than Raymore. It is the position of the Raymore Police Department that any disparities in the proportion of stops/proportion of population can be attributed to the fact that a large portion of the motoring public does not reside within the city limits of Raymore.

RACIAL PROFILING DATA/2008

# Agency response

The City of Richmond Heights is a 2.8 sq. mile city incorporated in 1913, located on the western boundaries of the City of St. Louis. Richmond Heights has three miles of U.S. 64 (Highway 40) running directly thru it. Highway I-170 runs north and south from U.S. 64 to the city limits of Clayton. Located in Richmond Heights is the Galleria Shopping Mall and the new Boulevard Shopping District. The Galleria Mall and Boulevard generate approximately 11 million shoppers or visitors each year. Richmond Heights also borders the City of Clayton, which is the county seat for St. Louis County. Thousands of vehicles travel thru Richmond Heights on a daily basis due to its geographic location. Estimate daytime population of Richmond Heights is 26,000.

# Agency response

The Riverside Department of Public Safety by policy and practice prohibits racial profiling. The latest census lists Riverside's population as 2,712. However, there are factors which increase the driving population above what would be expected for a town with this population count. Those factors include: a daytime population which grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (Kansas City, MO and Kansas City, KS); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

# Agency response

The City of Smithville is located at the intersection of U.S. Highway 169 and MO Highway 92, which connects Smithville to the 3 interstate highways: I-29 to the west, I-35 to the east, and I-435, which encircles Kansas City, is located just one mile south of the Smithville city limits.

According to recent figures supplied by MoDOT, approximately 3.9 million vehicles pass through the city each year. The volume of traffic is due to the proximity to the Kansas City metro area for jobs, the large number of families moving to the rural area, and recreational activities associated with the Smithville Lake area. Smithville Lake, located 100 feet from the Smithville city limits, is a 7,000 acre U.S. Army Corps of Engineers recreational lake with 2 public golf courses. Each year, the lake records in excess of one million visitors & an estimated 75,000 rounds of golf are played. Several events are held yearly at the lake including fishing and golf tournaments, and other major festivals through the year. A majority of the year the lake hosts several thousand campers & boaters that travel through the city on a daily basis.
Additionally, the City of Smithville hosts an annual July 4th celebration as well as a fall celebration in September which historically has drawn an estimated 10,000 spectators into the city. Visitors to the lake area travel through our city to reach their destinations.

# Agency response

To clarify, we have a large Hispanic community due to poultry processing plants in the area. There are very few “different” ethnic groups other than white in this part of Missouri.

# Agency response

I-70 runs through St. Charles and essentially divides the city in half, north & south. The interstate, aside from carrying interstate traffic, is the main artery carrying daily commuter traffic from St. Charles and west of St. Charles to the Greater St. Louis area. St. Charles also contains two highly traveled state highways, Hwy 94 & Hwy 370, which also serve as main arterial routes as well as feeding I-70's local, regional and interstate traffic. State Hwy 364, to a lesser degree, impacts traffic volume in the city. St. Charles is the County Seat of St. Charles County and contains the County Jail, County Courts Bldg. and all of the county's administrative offices. All such business conducted in person with county government is processed in St. Charles and greatly contributes to traffic in the city's core business area. The Historic Main Street District in the heart of St. Charles has many daily attractions and is the site of approx. 75 festivals & special events, drawing crowds from hundreds of miles. The 2 largest festivals, July 4th and the Little Hills Festival in August, have attendance of nearly 100,000. St. Charles has its own convention center; the St. Charles Family Arena w/ seating for over 11,000 causing traffic through the city; the Ameristar Casino draws 10.5 million annually (w/ gaming & other entertainment programs) and is one of the city's biggest employers; and Lindenwood University has a residential population of approx. 3500 students and serves 6,000 commuters.

**Notes:** Population figures are 2008 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
**Search rate** = (searches / stops) X 100.
**Contraband hit rate** = (searches with contraband found / total searches) X 100.
**Arrest rate** = (arrests / stops) X 100. #Error indicates zero denominator.

# Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community that reside in the city of St. Louis and, therefore, increases the diversity of drivers on the road within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. Our Department policy specifies that race-based detentions, traffic stops, arrests, searches and seizures of property are forbidden. In 2008 our Department received 326,907 calls for service; officers made 15,755 full-custody arrests and 73,567 traffic stops with no complaints of racial profiling. All commissioned officers participate in annual cultural diversity and sensitivity training and specialized training that prohibits the illegal practice of racial profiling. Supervisors review traffic stop data on a quarterly basis to ensure that officers do not engage in biased based policing.

# Agency response

The numbers represented in our data area accurate, but this is an explanation as to why the number of stops conducted by our agency far exceeds the population. We border the Fort Leonard Wood Military installation; we are the business hub for our county; and I-44 dissects our city. I hope this provides valuable insight as to the reason for the disproportional amount of traffic stops.

# Agency response

It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people with an African American population of 1.98 percent. The Town and Country Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our City limits. A careful examination of the data indicates that our practice matches this policy.

Nearly 400,000 motorists travel through our city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African American populations of 10.25 and 19 percent respectively. The traffic stop data for Town and Country Police Officers indicates that only 2 percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the City of Town and Country.

# Agency response

We are very unique in our population because of our role in the community. We are a University Police Department with approximately 12,500 students and another 3,000 faculty and staff personnel. Our student population is a diverse cross mix of international students and local community participants. Furthermore, the “transient” or “passing through” driving population is such that it is un-measurable. There are no real community standards or city to base our population on that would be an accurate depiction of our University. In addition, the amount of visitors to our campus for various functions is also un-measurable. It is unknown what percentages of stops are made on University related people, and the number that is just because of happenstance.

# Agency response

RACIAL PROFILING DATA/2008

# Agency: Wright City Police Dept.

Population: 1,728
age 16 and over

| KEY INDICATORS | Total | White | Black | Hispanic | Asian | Am. Indian | Other |
|---|---|---|---|---|---|---|---|
| Stops | 1185 | 1037 | 106 | 37 | 0 | 1 | 4 |
| Searches | 187 | 152 | 23 | 11 | 0 | 1 | 0 |
| Arrests | 35 | 25 | 5 | 5 | 0 | 0 | 0 |
| Statewide population % | N/A | 83.76 | 10.76 | 2.27 | 1.55 | 0.49 | 1.17 |
| Local population % | N/A | 84.90 | 5.67 | 7.75 | 0.12 | 0.52 | 0.98 |
| Disparity index | N/A | 1.03 | 1.58 | 0.40 | 0.00 | 0.16 | 0.34 |
| Search rate | 15.78 | 14.66 | 21.70 | 29.73 | #Error | 100.00 | 0.00 |
| Contraband hit rate | 14.97 | 15.13 | 13.04 | 18.18 | #Error | 0.00 | #Error |
| Arrest rate | 2.95 | 2.41 | 4.72 | 13.51 | #Error | 0.00 | 0.00 |

**Notes:** Population figures are 2008 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.
**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.
**Search rate** = (searches / stops) X 100.
**Contraband hit rate** = (searches with contraband found / total searches) X 100.
**Arrest rate** = (arrests / stops) X 100. #Error indicates zero denominator.
