Notes: Population figures are 2008 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The numbers represented in our data area accurate, but this is an explanation as to why the number of stops conducted by our agency far exceeds the population. We border the Fort Leonard Wood Military installation; we are the business hub for our county; and I-44 dissects our city. I hope this provides valuable insight as to the reason for the disproportional amount of traffic stops.
