Dear Secretary Ashcroft:

This opinion letter responds to your request dated October 4, 2019, for our review under § 116.334, RSMo, of a proposed summary statement prepared for the petition submitted by James Owen regarding a proposed amendment to amend Chapters 393 & 386, Revised Statutes of Missouri, version 4 (2020-116). - only allow the use of renewable energy credits to meet the standard if they are associated with electricity the utility sold to Missouri customers; and
- change net metering requirements (a billing mechanism that credits renewable energy system owners for the electricity they add to the grid)?

Pursuant to § 116.334, RSMo, we approve the legal content and form of the proposed statement. Because our review of the statement is mandated by
