The Census team put this spreadsheet together with four example areas. Is this what you had in mind?

- Vaccines aren't FDA approved
- Fraudulent cures
- VAERS data taken out of context
- Infertility

Subject: Request for problem accounts

Hi [REDACTED] -

I'm looking forward to setting up regular chats; my team has asked for examples of problematic content so we can examine trends. All examples of misinformation are helpful, but in particular, if you have any examples of fraud - such as fraudulent covid cures, fraudulent vaccine cards, etc, that would be very helpful.

Thanks in advance,
