Agency response

The City of Blue Springs is located in The Kansas City Metropolitan area along Interstate 70 and US 40 Highways. This route is heavily traveled between Kansas City and St. Louis with both in State and out of State travelers. Within the City, and in close proximity to the Interstate 70 corridor, are many restaurants and retail businesses to include a large shopping complex at Interstate 70 and Adams Dairy Parkway. In addition, the Blue Springs School District attracts a large number of students and visitors who are not actual residents of the City. These daily travelers greatly affect the population levels outside of those reflected in the State population estimates of drivers 16 and over, which in turn has an impact on the disparity index. The City of Blue Springs has made a strong commitment to protect citizens, both residents and non-residents, from racial or bias based profiling. In addition to the mandatory annual Racial Profiling training required by the State of Missouri, the members of the Blue Springs Police Department, both sworn and civilian, have been given additional POST certified training in this area. In 2017 Henry Lyons of the Olathe, Ks. NAACP conducted Bias Free Policing for all sworn officers and some civilian staff. The Blue Springs Police Department brings in a guest instructor of this nature annually, and will do so again in 2018. The Police Department also invites members of the Human Relations Commission to attend those trainings with officers and staff.

Agency response

Boone County's population is growing rapidly, experiencing an increase of over 9% since the 2010 census. U.S. Census Bureau data as of July 2017, estimates Boone County's population at 178,271. Boone is one of the fastest growing counties, and Columbia is now the 4th largest city in Missouri. The City of Columbia is the metropolitan center of Boone County and is the home to the state's flagship university, two other smaller colleges and many satellite college campuses. Columbia is the regional hub for employment in the education, medical (5 hospitals), insurance and manufacturing industries. Columbia also hosts multiple shopping, sporting and entertainment venues which draw visitors from all over the country. Boone County has the convergence of two major highways (Interstate 70 and U.S. Highway 63), and its population is greater during the day than at any other time with commuting workers.

Agency response

The City of Bridgeton is located near Lambert Airport and consists of a small residential population. There are three major interstate highways; namely, 70, 270 and 370 that run through the City. Also, US highway 67 (Lindbergh), St. Charles Rock Road and Natural Bridge Road are major thoroughfares which also run through the City of Bridgeton. There is a large transient population and work force with many hotels and large industrial employers within Bridgeton's boundaries.

Agency response

The Chesterfield Police Department strictly prohibits any and all forms of biased policing (racial profiling) by its personnel. This prohibition of bias policing practices applies to all encounters between police officers and citizens including arrests, traffic contacts, suspicious vehicle stops, field contacts, investigative detentions, consensual inquiries and forfeiture efforts. In addition to providing Traffic Analysis data to the Missouri Attorney General's Office annually, meeting all state statute requirements, the department has implemented a number of safeguards in order to prevent and or detect any possible signs of biased policing. The department utilizes monthly Quality Service Evaluations (QSE); randomly choosing sixty individuals who had contact with the agency's personnel each month and mailing them survey forms regarding the quality of services received. A more extensive citizen survey is mailed to every household in Chesterfield once every three years seeking similar input. The results of these surveys are closely scrutinized for possible indicators of biased policing practices. Annual training on biased based policing is provided to all commissioned personnel and a Citizens Concerns memo is compiled quarterly and reviewed by command personnel for possible evidence of biased police practices. Another means of preventing and monitoring for biased policing practices is through the department's weekly in-car camera audits which are conducted by all supervisors in the Patrol, Traffic & Special Enforcement Units. Each officer in these units has a standard number of their vehicle stops randomly chosen and reviewed by their supervisors each month. The results of these audits are forward to the division commander for review. A similar audit of newly issued Body Worn Cameras is also in place. In addition to heading off possible racial profiling practices, these audits often lead to the discovery of equipment failures or potentially unsafe actions by officers and repairs or spot corrections can then be made. Current Missouri law caps traffic fine revenue at 20% of a municipality's budget. In Chesterfield for 2017, the total fines and court costs collected was \$710,244, which is less than 3% of the City's overall budget, and that number includes all summons not just traffic fines. According to the 2017 Missouri Attorney General's Vehicle Stop data, Chesterfield officers stopped 9935 vehicles; 80% of the drivers were White, 14.5% were Black, 2.7% were Asian; less than 1% were Hispanic. For comparison purposes, the City's population demographics are estimated to be 83% White, 2.5% Black, 8% Asian and 2.4% Hispanic. It should be noted that this data regarding the percentage of African-Americans living in Chesterfield may be somewhat deceiving as the day-time population of Chesterfield, in both numbers and racial/ethnic makeup, is considerably different than those portrayed by the latest Census figures. Because Chesterfield is home to four major retail centers, numerous restaurants and a large light-industrial center, the numbers of African-Americans working, shopping and otherwise

doing business within the city limits is likely much higher than is represented in the City's population. Additionally, Chesterfield has an interstate (I-64) and several large state and county roadways that intersect it and although the racial make-up of those traveling on these roadways is unknown, it is very unlikely that it would closely mirror the racial and ethnic makeup of the city's population. The Chesterfield Police Department is committed to investigating all complaints of biased policing and conducts an annual administrative review (see Biased Based Profiling Complaints table below), however no complaints of biased policing have been received in the past three years.

Agency response

Clayton is unlike most other cities in St. Louis County. As the County seat, it is home to the County's Courts, Government Center, the Justice Center and many other social services, as well as being home to major corporations and a destination for restaurant and retail businesses. As such, Clayton serves as a hub of economic and governmental activity for the entire region. While this study cites a resident driving population of 13,803 people, Clayton is said to have a daily average population of roughly 46,000 people, which rises to an estimated peak of 70,000-80,000 people. Additionally, using figures from a 2014 study for our Downtown Housing Project, Clayton has an estimated population of 17,593 people living within a one mile radius of City Hall. These numbers increase to 113,679 from 0-3 miles out, and to 297,877 from 0-5 miles out. Using these figures, the minority population is calculated at 9.93%, 29.35%, and 33.85%, respectively. For this reason, using Clayton's residential driving population to determine potential bias doesn't seem to be an appropriate method, as it doesn't take into account the people living, working, and visiting Clayton, either in total numbers or in racial makeup. In tandem with these figures, social scientists say there are a number of other factors which should be considered in attempting to determine potential bias, and trying to do so using only residential driving population seems quite inadequate. Among the various factors cited by Dr. Lori Fridell that should be considered in such a survey are driving quantity, quality and location, all of which are legitimate factors for reviewing car stop data. With all due respect to the methodology used to calculate disparity, we feel these measures, among others, would be appropriate to include in the study data.

Agency response

The City of Clinton is located on the main route between the Kansas City metropolitan area and the City of Springfield. As a consequence, a large number of non-Clinton residents pass through the City of Clinton. Approximately 25% of all traffic stops made by the Clinton Police Department in 2017 took place on state highways. Given the number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of the City of Clinton are inherently flawed.

Agency response

The large disparity rate noted in our report is due to our city being located just outside the city of Joplin. A large percentage of traffic through our city is from Joplin via 7th street.

RACIAL PROFILING DATA 2017

Agency response

The City of Florissant offers several amenities to the citizens of Florissant, which has an approximate population of 50,000. Several of the amenities also serve the citizens of North St. Louis County and North St. Louis City. The City of Florissant has several business districts, shopping centers, restaurants, department stores and grocers, which serve not only the residents of Florissant but the surrounding communities as well. A number of the surrounding communities do not have these amenities, therefore, those residents must commute to Florissant for these needs. The City of Florissant also has numerous arterial roads, which include County and state roads as well as portions of Interstates, which provide access and travel routes for our citizens and citizens of the surrounding communities. The majority of the traffic stops are conducted on these roadways. Florissant sees a higher ratio of visiting population due to the significantly higher percentage of African American citizens living in the adjacent communities such as Black Jack, Dellwood, Ferguson, Berkeley and Spanish Lake. The Ferguson Florissant and Hazelwood school Districts both have schools in the City of Florissant that have a high student ratio of African American families. When all these factors are taken into consideration, the traffic stop data reflected in our annual report is truly representative of the motoring population that traverses the City of Florissant.

Agency response

Frontenac includes a large section of I-64 and a major shopping mall, and is located in the geographic center of St. Louis County. Daytime population increases by tens of thousands of people. The flawed disparity index used by the Attorney General's office uses only individual city demographics, as opposed to more realistic county-wide demographics. This skews the results when viewed in relation to a small City with few minority residents. This is true for other cities within St. Louis County with few Caucasian residents. Obviously, motorists other than Frontenac residents drive on our streets and highways. For years this Department has requested that the formula be revised to include St. Louis County data. This would clearly show that our traffic stops are reflective of St. Louis County demographics. In fact, this year's data would show that 17.8% of our stops were black motorists, and 78.8% were white motorists. For information, 24% of St. Louis County residents are black, and 67% are white, according to the latest US Census. Also, we contract with 3 neighboring cities for police services, and these stop numbers include stops in those areas. Frontenac Police Officers are committed to protecting and serving fairly, with respect for all people. We appreciate the opportunity to provide a more accurate framework of our traffic stop data.

Agency response

Howard is a small county with Central Methodist University and is a major thoroughfare for a very large number of cars headed to and from the River Boat Casino in Boonville. Those two facts alone can vary the numbers and the occupants, ages, ect, by a significant amount.

Agency response

Independence is the fifth-largest city, county seat and immediate suburb of Kansas City, with a 2010 US Census population of 116,830. The ten major Interstates, highways and roadways allow direct access to the multiple racially diverse Kansas City metropolitan attractions located in the community; President Truman National Library and home, Sports Arena, Event Center, Chrysler Baseball Stadium, colleges, community festivals, "super-regional" shopping mall and retail area, "mega" movie theater complex, multi-cultural dining venues and Community of Christ International Headquarters. The City of Independence, 2017 disparity index has remained consistent with the past four years as the metropolitan attractions and thirty-one low income housing apartment complexes have influenced the racial composition of the motoring public to the community. The Independence Police Department is a professional law enforcement organization that is committed to impartial, competent, and courteous service to the public without regard to race, creed or gender. Officers receive annual training on cultural challenges and issues by ensuring and maintaining accountability in part through the integrity of the racial profiling documentary process in compliance with Missouri State Statute.

Agency response

Some of the contributing factors for the index being over 1 are as follows: Jasper County has several miles of I-44, I-49, State Highway 96 and State Highway 43 running through it. We also have two major universities, MSSU and OCC, that are reported to bring in 20,000 licensed drivers from outside Jasper County per day. Jasper County also has several large corporations (Conway Trucking, Tri-State Trucking, Eagle Picher, Leggett and Platt among several other businesses that employ people who do not live in our jurisdiction or state. (We border Kansas and Oklahoma) We also have a large mall that is in Jasper County. A lot of people traveling through our county, working in our county or going to school in our county do not reside in Jasper County. Our population for Jasper County is approximately 117,728 residence but the Chamber of Commerce estimates that on any given day there are over 250,000 people in our county.

Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.1 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG Office submitted the summary report did not include the category Stop Outcome "Other", which was a factor involving 3,278 stops. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

Agency: Kennett Police Dept.

Population: 8,419

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	3218	2305	801	104	5	2	1
Searches	219	131	79	9	0	0	0
Arrests	186	117	57	12	0	0	0
Statewide population %	N/A	82.76	10.90	2.94	1.71	0.41	1.28
Local population %	N/A	82.22	13.23	2.59	0.74	0.24	0.99
Disparity index	N/A	0.87	1.88	1.25	0.21	0.26	0.03
Search rate	6.81	5.68	9.86	8.65	0.00	0.00	0.00
Contraband hit rate	32.88	29.77	36.71	44.44	#Num!	#Num!	#Num!
Arrest rate	5.78	5.08	7.12	11.54	0.00	0.00	0.00

Notes: Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University has 724 students listed other than white. They also have an additional 374 international students not included in the 724. TSU enrollment for the fall of 2017 has 23% listed as non-white. The majority of TSU students, 99%, come from outside the Kirksville area. The City of Kirksville has seen a significant increase of families from the Democratic Republic of the Congo since the 2010 census report. As an example, the Kirksville RIII School District reports 117 students enrolled in K-12 for the 2017-2018 school year. Kirksville is located on one of the few major north-south highways (Highway 63) that services northern Missouri and southern Iowa. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

Agency response

Lafayette County is a county of approximately 33,000 residents. We are located approximately 30 miles east of downtown Kansas City (Jackson County). Interstate 70 and US 24 Highway both run through our entire county. Our deputies heavily patrol both of these roadways, along with other State and secondary roadways. Therefore, a high percentage of our traffic stops are conducted on these stretches of roadway, leading to the stop of a lot of out of county residents.

Agency response

The city of Lake Saint Louis is bordered by I-70 to the north and I-64 bisects the south end with a recent addition of Hwy 364 as a new connector highway throughout St. Charles County. A large shopping center is just north of I-64 and a retail district lies directly to the south. Workers routinely travel both interstate corridors west to the Wentzville GM Plant and to major employers in O'Fallon and other points east. Additionally, the population of our city is greater than indicated from the 2010 census results. Per the Census Bureau, the 2016 results indicate a population of 15,777. Due to these factors, calculating a disparity index based on comparison of ethnicity of drivers stopped with the ethnicity of the city's population may be misleading due to the transient traffic.

Agency response

The City of O'Fallon is located in the center of St. Charles County. We have 2 major Interstates- I-70/64, Route 364 and State Highway 79. O'Fallon also has a major arterial roadway- MO K- that connects the 4 highways from north to south and is a major retail corridor. Because of these heavily traveled roadways, our driver population is more diverse than the census population would indicate, making our disparity index artificially high.

Agency response

The City of Olivette has two major highways within its boundaries. I-170 is on the east and HWY 340 (Olive Boulevard) is a major thoroughfare that divides the north and south sectors of the City. The reported population of the City is 7,737; however, on a daily basis, over 100,000 vehicles utilize I-170 and over 32,000 vehicles utilize Olive Blvd. Olivette has several employers that employ hundreds of employees which also increases the daily population. In 2017, the Olivette Police Department made 2,841 traffic stops. The traffic analysis reports submitted to the Missouri Attorney General during this time period indicate the drivers of the stopped vehicles were as follows: 48.2% were White, 42.8% were Black, 6.5% were Asian, and 1.5% were Hispanic. The reported African-American resident population in Olivette is approximately 24%. Using that percentage, it appears as if African-Americans were stopped at a rate disproportionate to the African-American resident population. However, the actual number of African-American residents that were stopped was 129, which equates to 4.5%, far below the resident percentage. It does not seem adequate to determine potential bias without including the massive amount of people who work, visit and travel through Olivette daily while only considering Olivette's resident population. The Olivette Police Department prides itself on the amount of training our officers receive. Included in that training are courses on bias based policing, implicit bias and racial profiling. The Olivette Police Department is a professional police organization that is committed to protecting all people, both residents and non-residents, from racial or bias based profiling.

Agency response

Osage Beach is a tourist destination located in central Missouri along the shores of Lake of the Ozarks. Highway 54 runs through the city and is a major thoroughfare between Jefferson City and Springfield bringing a large influx of transient population through the city daily. A majority of the violators are not residents of the city of Osage Beach.

RACIAL PROFILING DATA 2017

Agency: Osage County Sheriff's Dept.

Population: 10,822

age 16 and over

Agency response

Raymore continues to be one of the fastest growing communities in the Kansas City metropolitan area with significant increases in population each year, placing it far above the number of 14,300 still used from the 2010 census. The Community Development Director for the City of Raymore supplied the official population estimate of 20,839 as of July 1, 2016. This number is provided to the City each May for the previous year by the U.S. Census Bureau. As such, the population estimate for the previous year is not available at the time our response is due to the Office of the Attorney General. According to the American Community Survey provided by the Census Bureau each year, Raymore ranked #17 in growth rate (11.6%) from 2010 to 2016 out of all 129 Missouri cities with a population over 5,000. In 2017, the City of Raymore issued 200 permits for new single family homes and 2 permits for duplex units. Of particular significance was the increase of multi-family dwelling units from 12 in 2016 to 80 in 2017. The number of new single family homes in 2016 was 199, 2015 was 123, 2014 was 97 and 2013 was 110. Economic development has also continued to increase dramatically both in Raymore and several surrounding communities, with the addition of several big box stores, restaurants and other retail venues drawing a transient and diverse customer base to the area. Raymore borders communities such as Kansas City, Belton and Grandview with considerably larger and more diverse populations. As mentioned in previous reports, a large retail store maintains its position as the highest 'call for service' and arrest location in Raymore. This store is one of the only 24-hour operations found in the southern Kansas City metropolitan area. It is located in the same complex of shops as a large wholesale store that relocated to Raymore from a more urban community in 2013, drawing greater diversity of consumers. The total number of traffic stops decreased from 5,397 in 2016 to 4,832 in 2017, due in large part to a severe staffing shortage of nearly 30% in patrol officers.

Agency response

There are a number of flaws with the disparity index used by the Attorney General's office. Of those flaws is the way the AG's office calculates our population for comparison of our vehicle stops. The AG's office counts people age 16 (driving age) and over for this analysis. For Richmond Heights the AG's office lists this population in 2018 that is 7,198. The AG's office has been using same number since 2011, imply there has been no change. The population count makes two fatal assumptions. The first is that it assumes every one of driving age actually drives. They begin driving when they turn 16 years of age and do not stop driving until they are removed from the population count. The second is that the races of that population stay the same 24 hours a day. With two major highways, a shopping mall and additional shopping areas our daytime population increases by tens of thousands of people. The flawed disparity index uses only the individual city demographics, as opposed to more realistic regional demographics. Obviously motorists other than Richmond Heights residents drive on our streets and highways every day, all day. As a matter of fact of all vehicle stops made by Richmond Heights officers since 1-1-2015 (this statistic does not go back any further), less than 6% were residents of Richmond Heights. An additional flaw is that the disparity index makes the assumption that those motorists of a particular race should be involved in vehicle stops at the exact ratio of their representation in the population. There is no benchmark to support this assumption. To say that a particular race is being stopped too often, one must know the rate of lawbreaking by that group.

Agency response

The Riverside Police Department by policy and practice prohibits racial profiling. There are factors which dramatically increase the driving population above Riverside's cited driver-eligible population. Those factors include: a daytime population which grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (Kansas City, MO and Kansas City, KS); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

RACIAL PROFILING DATA 2017

Agency: Riverview Police Dept.

Population: 2,116

age 16 and over

RACIAL PROFILING DATA 2017

Agency: St. Ann Police Dept.

Population: 10,416

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	7561	3137	4101	130	77	6	110
Searches	979	312	636	24	2	0	5
Arrests	800	222	552	19	3	0	4
Statewide population %	N/A	82.76	10.90	2.94	1.71	0.41	1.28
Local population %	N/A	71.15	20.16	4.61	2.27	0.24	1.57
Disparity index	N/A	0.58	2.69	0.37	0.45	0.33	0.92
Search rate	12.95	9.95	15.51	18.46	2.60	0.00	4.55
Contraband hit rate	14.91	16.99	14.31	4.17	0.00	#Num!	20.00
Arrest rate	10.58	7.08	13.46	14.62	3.90	0.00	3.64

Notes: Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Population: 3,203

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1747	1729	10	2	5	0	1
Searches	83	79	4	0	0	0	0
Arrests	75	71	4	0	0	0	0
Statewide population %	N/A	82.76	10.90	2.94	1.71	0.41	1.28
Local population %	N/A	95.85	0.75	1.37	0.34	0.53	1.16
Disparity index	N/A	1.03	0.76	0.08	0.83	0.00	0.05
Search rate	4.75	4.57	40.00	0.00	0.00	#Num!	0.00
Contraband hit rate	25.30	25.32	25.00	#Num!	#Num!	#Num!	#Num!
Arrest rate	4.29	4.11	40.00	0.00	0.00	#Num!	0.00

Notes: Population figures are from the 2010 Census for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The City of St. Louis is approximately 62 square miles in size and lies at the core of the largest metropolitan area in the state. The City is comprised of 79 diverse neighborhoods and 108 City parks and is home to a world-renowned zoo and botanical garden as well as other major museums and arts and entertainment attractions. The City hosts every home game for two major sports franchises and one Division I university, a multitude of concerts and theatrical performances at numerous venues, and a set of large regional cultural events including a large multi-day Independence Day festival, and the second-largest Mardi Gras celebration in the country. As the urban core of the metropolitan area, the City's estimated daily population grows by approximately 35%, drawing from all surrounding cities and counties within the metropolitan statistical area. In addition, regional daily commuting patterns bring residents from throughout the region, as well as citizens from outside the region, into the City limits. While the data compiled in this report are informative, it is important to note that disparity indices represent ratios based simply on resident population and do not take into consideration regional population, commuting patterns, or factors intrinsically associated with providing law enforcement services. As a result, a high disparity rate does not serve as proof of racial profiling. Department policy prohibits bias-based policing and officers must adhere to this policy. Every commissioned member of the Department receives annual training against the practice of bias-based policing, as required both by State law and by Department policy. This training is supplemented and reinforced by periodic courses in related topics such as cultural diversity, ethics, and communication skills. The Department continues to work with its officers, local leaders, and community and academic partners to identify best practices as they relate to citizen contacts.

Agency response

The data presented in this report provides a summary of stop data and a rudimentary overview of traffic stop disparity in St. Louis County, but should not be used to draw meaningful conclusions about racial profiling. The disparity index calculated uses census data as a benchmark. Census data does not account for the diverse population traveling throughout the county's 523 square miles on its 3,100 lane-miles of roadway. St. Louis County is not only the state's largest population center with approximately one-sixth of the state's population, it is also a major travel, employment, and educational center. Six major interstate highways converge within the county and according to a 2013 Missouri Department of Transportation study, St. Louis County has the highest average annual daily traffic counts in the region, with some portions of the interstate accommodating as many as 200,000 vehicles per day. St. Louis County is home to more than 20 institutions of higher education, eight major malls, and countless shopping plazas employing one-fourth of the state's workforce. As a major employer, commercial and educational center, St. Louis County not only attracts residents from the surrounding counties, but outlying counties in this state and the state of Illinois. For all these reasons, using census data as a benchmark cannot provide an accurate measure of the driving population in St. Louis County. Conclusions about disparity or racial profiling drawn from a census benchmark method are problematic. More in-depth research with advanced techniques should be used to discover meaningful results.

Agency response

The following conditions may influence minority contacts in St. Peters: Interstate Highway 70 and Missouri Highways 370 and 364 passes through or terminate within the City. Mid Rivers Mall and Shoppes at Mid Rivers, major retail developments are located along Interstate 70 and Highway 370. The community is home to several regionally significant office and professional campuses; and employees of local businesses, commuter traffic, retail customers and borders the St. Charles Community College campus, which significantly increases the non-resident driving population.

Agency response

In regards to the racial profiling data, it should be noted that the population noted on the racial profiling data is incorrect. The estimated population from the 2010 Census is 4,830. According to the United States Census Bureau the estimated population of Waynesville as of July 1, 2016 is 5,314. The City of Waynesville includes Waynesville Regional Airport at Forney Field, providing the community with air service. Although it is on Fort Leonard Wood, it is jointly run by the cities of Waynesville and Saint Robert and is available for civilian and commercial service. The major east-west routes near Waynesville are Interstate 44: before that, the main highway was US Route 66, which still exists as a scenic route through the area and passes through the Devil's Elbow, St. Robert, Waynesville, Buckhorn, and Hazelgreen. The major north-south routes near Waynesville are: Route 17 which crosses Interstate 44 at exit 153 at Buckhorn, runs east through Waynesville, turns north to Crocker and then runs north out of the county to Iberia. South of Interstate 44, Highway 17 hugs the western edge of Fort Leonard Wood, passes near Laquey, and circles south of the post until it runs out of the county and joins Highway 32 in Roby. Highway T which runs north from Highway 17 at Waynesville to Swedeborg, where it meets and ends at Highway 133, between Richland and Crocker. Major attractions along US Route 66 include: the Old Stagecoach Stop in Downtown Waynesville, which is now a museum but began as a tavern and boarding house and is the oldest standing structure in the county. The Old Courthouse Museum in downtown Waynesville is near the Old Stagecoach Stop. Seven main school districts are fully or partially within the borders of Pulaski County, not counting two small districts which are mostly within other counties and only have a few dozen residents within Pulaski County. All seven school districts have a high percentage of Fort Leonard Wood military dependents, and over two-thirds of Waynesville students fall into that category. The cities of Waynesville, St. Robert and Fort Leonard Wood along with their surrounding rural areas running east to Devil's Elbow, are served by the Waynesville R-VI School District which is by far the largest in the county. There are currently 5,783 students and 810 staff members at the school on a daily basis. The City of Waynesville borders Fort Leonard Wood and is the main entry to Fort Leonard Wood's West Gate. Fort Leonard Wood is a census designated place (CDP) in Pulaski County, Missouri, United States. The population per the United States Census Bureau was 15,061 at the 2010 census. The racial makeup of the CDP was 70.6% White, 16.5% African American, 1% Native American, 2.6% Asian, 0.7% Pacific Islander, Hispanic or Latino of any race were 14.6% of the population this as per the United States Census Bureau's data. I believe all of the information presented may provide additional information in order to clarify the data and provide a more accurate reflection of the demographics of our driving population. I hope

this information will improve our ability to provide a more balanced report to the public.

Agency response

The following information is offered to help put the 2017 racial profiling data, as summarized in the Woodson Terrace Traffic Stop report, in a fuller context. Woodson Terrace has six (6) major hotel chains and three (3) major car rental agencies within its city limits, all of which who employ minorities as a large percentage of their work force. Columbia College has a campus within the city limits along with one (1) Mexican bakery and two (2) Mexican grocery stores, all of which brings a large minority presence to the city. Woodson Terrace is bordered to the east by the City of Berkeley, whose population as of the 2010 census consisted of 81.8% African American, 14.3% white and 3.5% Hispanic or Latino. The northern city limits adjoin Lambert St. Louis International Airport which served over 14 million travelers in 2017. Interstate highway I-70, which serves as a major access route to the airport, travels East and West through the city. State Highways 115 and EE also have routes that travel through Woodson Terrace connecting it with the Cities of Berkeley to the East, Overland, St. John and Breckenridge Hills to the South and to the West St. Ann and Edmundson. I hope this additional information helps with any questions you might have as you consider the data.

RACIAL PROFILING DATA 2017

Agency: Worth County Sheriff's Dept.

Population: 1,783

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	92	86	6	0	0	0	0
Searches	8	8	0	0	0	0	0
