RE: Sunshine Law Request

Dear Ms. Hibbs:

I write to request copies of the following public records pursuant to Chapter 610 of the Missouri Revised Statutes:

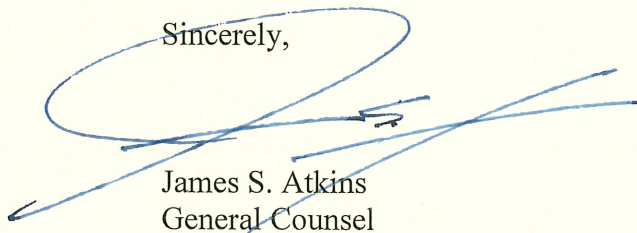

1. List maintained by the District of all instructional textbooks adopted pursuant to board policy IIA for use in K – 5 classrooms during the past ten (10) years.

I request that all responsive records be produced electronically, or be made available immediately for inspection.

This request seeks documents that are in the public interest because they are likely to contribute to a better understanding of the operations or activities of Park Hill School District. In addition, this is not a request for commercial purposes. For these reasons, pursuant to § 610.026.1(1), RSMo, the Missouri Attorney General's Office requests a waiver of any fees associated with processing this request for records.

Thank you for your time and attention to this matter.

Sincerely,

James S. Atkins
General Counsel

Ms. Haines and Mr. Atkins,

I am responding to your sunshine request dated April 19, 2022.

I have attached a list containing currently-adopted instructional textbooks for grades K-5. The instructional textbooks used in grades K-5 are also listed in the curriculum information publicly posted on the district's website at: <https://www.parkhill.k12.mo.us/families/elementary-curriculum>.

The district does not have a list of K-5 instructional textbooks that were adopted during the past ten years but are no longer in use.

Thank you.

BOX 2 MANIPULATIVES

- 1 Large base ten blocks
- 2 Small base ten blocks
- 3 Student number cards
- 4 Dice
- 5 Game markers
- 6 Spinner overlays

If you'll be using the volumes in just one place, store the manipulatives in a cuboid bin, or drawer.

If the volumes will be used independently in different locations...
Divide the craft sticks and game markers into small labeled containers or ziploc bags, as shown in the table below. Put 8 counters number cards in one small labeled box and 11 in another. Sort the other manipulatives by volume as shown in the table, keeping them in the bags they're packed in. Keep the manipulatives for each volume with the component lists for that volume.

3	1	Blank Number Line for Learning Math
4	1	Blank Number Line for Learning Math
5	1	Blank Number Line for Learning Math
6	1	Blank Number Line for Learning Math

Quantities shown in table are approximate. All quantities are based on a small classroom group of 18 students.

You'll also need some math manipulatives not included in this list.

Make sure you have access to these items if you like, you can divide the links below by volume as shown.
